💼 PROFESSIONAL EXPERIENCE

Front-End Developer | Golden Info Systems Ltd, Dhaka, Bangladesh   *March 2022 – Present*

Project : AI Chatbot Widget (Ongoing)

> Developed a fully functional chat widget deployable via a JS CDN link.
> Integrated an LLM model trained with store-specific data for seamless user interaction.
> Implemented a real-time fallback mechanism for live human agent support.
> Designed an admin panel for complete customization, including bot name, color scheme, and more.

Tech Stack : `Typescript` `ReactJS` `CSS Module` `React Query` `Zustand`

Project : AI Chatbot Admin Panel (Ongoing)

> Built interactive dashboards to monitor AI usage and user engagement.
> Integrated Kinde Auth for secure authentication and authorization.
> Implemented role-based access control and modular UI components.
> Enabled real-time chat handling and widget customization features.

Tech Stack : `ReactJS` `Typescript` `ShadCN` `React Hook Form` `React Query` `Zustand`

Project : Ecomilli (Frontend + Backend)

> Developed a social commerce platform combining marketplace and community interaction.
> Implemented backend features for social interactions including likes, comments, and shares.
> Integrated real-time chat functionality using socket connections.

Tech Stack : `ReactJS` `NestJS` `Prisma` `Typescript` `Material UI` `React Hook Form` `React Query` `Zustand`

Project : SKF QR (Frontend + Backend)

> Created dynamic QR code pages for pharmaceuticals with product verification.
> Built product detail pages that display verified information.
> Developed an admin panel for medicine management and QR tracking.

Tech Stack : `ReactJS` `NestJS` `Typescript` `Prisma` `Material UI` `Zustand`

Project : HRMS Software

> Developed modules for attendance tracking, payroll, leave, and performance management.
> Implemented role-based dashboards with fine-grained permissions.

- › Designed and built intuitive leave management and attendance workflows.
- › Integrated export features to generate reports in PDF and Excel formats.

Tech Stack : ReactJS | Javascript | Material UI | React Hook Form | React Query | Context API

Project : HealthHouse (Middleware)

- › Developed a middleware web app to bridge data exchange between two services.
- › Integrated Auth0 for secure user management and authentication.
- › Processed and cleaned large data payloads for accurate frontend representation.

Tech Stack : ReactJS | Javascript | Material UI | Context API

Jr. Software Engineer | Octaglory Ltd, Dhaka, Bangladesh   *July 2021 – December 2021*

Project : Octaglory ERP

- › Enhanced the UI/UX of a SaaS-based ERP system.
- › Refactored existing UI components and created Figma prototypes.
- › Collaborated with backend developers to align UI with API responses.
- › Improved overall application performance and responsiveness.

Tech Stack : ReactJS | HTML | CSS | Figma | Webpack
